## Time and light control Digital time switches

### Description

- Digital time switch with weekly program for flush-mounted wall-installation
- 1 channel
- Programming by app possible
- Safe transfer via optional Bluetooth Low Energy OBELISK top3
- Maximum manipulation security, time switch programs can only be transferred from the app to the time switch when the Bluetooth OBELISK top3 is plugged into the time switch
- 3 special programs (small annual program)
- Cycle, random and pulse program
- 84 memory locations
- DuoFix spring terminals
- Text-oriented user guidance in display
- 6 year power reserve
- Interface for OBELISK top2 memory card (PC programming)
- Switching preselection
- Permanent switching ON/OFF
- Integrated operating hour counter
- Holiday program
- PIN coding
- Automatic summer/winter time changeover
- Adapter frames for common switch ranges available as accessory

### Technical data

| TR 030 top3 UP                                      |                      |
|-----------------------------------------------------|----------------------|
| Operating voltage                                   | 230 V AC             |
| Frequency                                           | 50 Hz                |
| Installation type                                   | Flush-mounted        |
| Type of contact                                     | NO contact           |
| Program                                             | Weekly program       |
| Program functions                                   | ON-OFF, Pulse, Cycle |
| Number of channels                                  | 1                    |
| Number of memory locations                          | 84                   |
| Power reserve                                       | 6 years              |
| Switching capacity at 250 V AC, cos $\varphi$ = 1   | 10 A                 |
| Switching capacity at 250 V AC, cos $\varphi$ = 0,6 | 2 A                  |
| Incandescent/halogen lamp load                      | 2300 W               |
| LED lamp < 2 W                                      | 50 W                 |

| TR 030 top3 UP                  |                                                              |
|---------------------------------|--------------------------------------------------------------|
| LED lamp 2-8 W                  | 600 W                                                        |
| LED lamp > 8 W                  | 600 W                                                        |
| Shortest switching times        | 1 s                                                          |
| Time accuracy at 25 °C          | typical $\pm 0,25$ s/day (quartz)                            |
| Time basis                      | Quartz                                                       |
| Stand-by consumption            | ~0.4 W                                                       |
| Type of connection              | Screw terminals                                              |
| Keyboards                       | 4 touch buttons                                              |
| Housing and insulation material | High-temperature resistant, self-extinguishing thermoplastic |
| Type of protection              | IP 20                                                        |
| Protection class                | II according to EN 60 730-1                                  |
| Ambient temperature             | -5°C ... 55°C                                                |
